RESEARCH SEMINAR PRESENTATION EXPERIENCE

This letter is to confirm that **Mr. Guglielmo Pampiglione**, from Italy, who is studying the MSc in Pest Management at Imperial College, presented a successful and informative one hour seminar for research staff of the International Institute of Biological Control (IIBC) and Imperial College on 27/11/97.

Mr. Pampiglione's seminar was entitled **Proposals for an Insect Pest Management extension training programme for smallholder cotton farmers of the Guntur (Andhra Pradesh) region of India**. The seminar was based on the findings of a farmer survey and other studies he conducted in Guntur region for ZENECA UK as part of his MSc research.

We would recommend Mr. Pampiglione's seminar presentation skills in any courses or research he may be involved with in the future.

Yours sincerely,

Dr. Jeff Waage  
Director
